Miles Crossing continued:

Miles Crossing will be built in 3 phases

Phase One: The first phase will commence construction this fall and consist of 160,000 sq.ft. of mixed use commercial, including the following restaurants: California Pizza Kitchen, a Chop House, Miro's, and Le Peon. This development will be contemporary architecture of staggered single story buildings.

Phase Two: The Fairmont Residences adjacent to the Esmerelda on the West side of Miles Road will consist of 147 furnished 1,000-2,000 sq.ft. condos that can be put on the Fairmont rental program when not in use by owners. The Fairmont Lodge will be five stories containing 80 units plus one story Villas. There will be a large pool area, a Fitness Center and an area for Social Receptions, but no restaurant. Construction is scheduled to begin in fall 2007.

Phase Three: This project known as Accent Homes consists of eleven paired homes between Miles Avenue and the wash. The homes will consist of 3 stories and will appear to be single story from Miles Avenue, but will actually be built on three levels with a garage at the lower level and include an elevator to move the owners up to the main living areas.

Plan now to attend the **2007 LG SKINS Game** at the **Celebrity Course @ Indian Wells Golf Resort** November 23rd, 24th,

Star Facts by Alex Negron

Alpha Centauri is the nearest star to us excluding the sun. It is 4 and 1/3 light years away. A light year is the distance that light travels in one year. ??? If you multiply the speed of light 186,000 miles per second by the amount of seconds in a year 31,500,000 you will find the distance of a light year = 6,000,000,000,000 miles. Alpha Centauri is 26 trillion miles away from earth.

If you would like to stargaze every night call Alex @ Starlight Rooms for a 3D view of the night time sky on your ceiling. **760 409-7035**
